FOR IMMEDIATE RELEASE

**VERMONT IS OPEN FOR EB-5 INVESTMENT**

The State of Vermont, one of the United States most beautiful places, is offering foreign investors an approved EB-5 alien entrepreneur program to participate in. Vermont has been an approved Regional Center since 1997, receiving its Regional Center status from the Immigration and Naturalization Service at that time.

Qualified investors can participate in a State of Vermont endorsed project located in one of Vermont's most popular and successful resort communities, Jay Peak Resort.

Jay Peak Resort is expanding its facilities and has created an EB-5 Project, the Jay Peak Hotel & Conference Center facility in the center of the resort. Two hundred hotel suites, a conference center, and indoor recreation complex will be constructed in 2006/2007 and will employ hundreds of Vermonters and have significant direct and indirect employment impact on the Regional Center

The Jay Peak project is accepting qualified investors now with recruitment occurring over the next 3-6 months..

"The Jay Peak Hotel & Conference Center project is one we know very well and are very pleased it is becoming a reality at this time.. We have met with CIS officials and are very encouraged by the cooperative approach to this Vermont EB-5 project at Jay Peak." Said Kevin Dorn, Secretary of Commence for the State of Vermont..

Any qualified investor or legal counsel interested in the Vermont EB-5 project at Jay Peak Resort is welcome to inquire at Jay Peak Resort Hotel & Conference Center EB-5 project contacts below..
